15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This temporary application is being filed to allow for exploration drilling at this location, and is being requested for a full one year period of time. Existing production wells are not capable of providing sufficient flows to meet project demand. This new well is anticipated to be used in conjunction with other production wells for irrigation within the proposed place of use. A permanent application to change will be filed if pump test results are sufficient to meet project demand.

16. Miscellaneous remarks:

Based on pending change applications and corresponding time frames for approval, a change of Permit No. 65779 is being proposed to allow for exploration drilling.
